

To the Yukon Legislative Assembly:
This petition of the undersigned shows:

THAT for the past two years the government of Yukon has followed policies in dealing with the

COVID-19 pandemic that have caused hardship to many Yukoners; and

THAT the public during this time has not been allowed to ask meaningful questions of the

government resulting in the perception of being ignored;

THEREFORE, the undersigned ask the Yukon Legislative Assembly to urge the Yukon government to have an open, civil, mediated forum between the public and government representatives such as the Premier and the Chief Medical Officer of Health so that questions can be asked regarding the rationale behind the pandemic policies of the past two years, and to hold this forum before June 30, 2022 in a large venue such as a school gymnasium
