

To the Yukon Legislative Assembly:

This petition of the undersigned shows:

THAT ending the time change by switching to year-round Daylight Savings Time, also known as DST, has resulted in many people struggling with a lack of daylight in mornings in the winter;

THAT the negative impacts on families had not been predicted or expected by a lot of people before the switch was made;

THAT the survey done by the Government of Yukon prior to the switch to DST was flawed, as the survey let people fill it out multiple times if they used more than one computer, phone, or tablet;

THAT the Government of Yukon can use more secure surveys, and has recently done so with Yukon Bureau of Statistics surveys using a unique link or pin number for each person;

THEREFORE, the undersigned ask the Yukon Legislative Assembly to urge the Government of Yukon to do another survey, one that uses a secure method to avoid repeat submissions, asking Yukoners if they want return to our own time zone; Yukon Permanent Standard Time UTC-9h, to stay on Permanent Daylight Savings Time = UTC-7h, switch to Permanent Standard Time = UTC-8h, or go back to seasonal time changes UTC-7h and UTC-8h for half a year each.

THAT the survey done by the Government of Yukon prior to the switch to DST was flawed, as the survey let people fill it out multiple times if they used more than one computer, phone, or tablet;

THAT the Government of Yukon can use more secure surveys, and has recently done so with Yukon Bureau of Statistics surveys using a unique link or pin number for each person;

THEREFORE, the undersigned ask the Yukon Legislative Assembly to urge the Government of Yukon to do another survey, one that uses a secure method to avoid repeat submissions, asking Yukoners if they want return to our own time zone; Yukon Permanent Standard Time UTC-9h, to stay on Permanent Daylight Savings Time = UTC-7h, switch to Permanent Standard Time = UTC-8h, or go back to seasonal time changes UTC-7h and UTC-8h for half a year each.

To the Yukon Legislative Assembly:

This petition of the undersigned shows:

THAT ending the time change by switching to year-round Daylight Savings Time, also known as DTS, has resulted in many people struggling with a lack of daylight in mornings in the winter;

THAT the negative impacts on families had not been predicted or expected by a lot of people before the switch was made;

THAT the survey done by the Government of Yukon prior to the switch to DST was flawed, as the survey let people fill it out multiple times if they used more than one computer, phone, or tablet;

THAT the Government of Yukon can use more secure surveys, and has recently done so with Yukon Bureau of Statistics surveys using a unique link or pin number for each person;

THEREFORE, the undersigned ask the Yukon Legislative Assembly to urge the Government of Yukon to do another survey, one that uses a secure method to avoid repeat submissions, asking Yukonners if they want return to having our own time zone; Yukon Permanent Standard Time UTC-9h, to stay on Permanent Daylight Savings Time = UTC-7h, switch to Permanent Standard Time = UTC-8h, or go back to seasonal time changes UTC-7h and UTC-8h for half a year each.
