

To the Yukon Legislative Assembly:

This petition of the undersigned shows:

THAT housing is a human right;

THAT under the Yukon Residential Landlord and Tenant Act, 27(1) The landlord must provide the residential property free of rodent, vermin, and insect infestations and must take appropriate measures to exterminate infestations, should they occur;

THAT Yukon Housing Corporation tenants continue to experience frequent bedbug infestations in their units;

THAT bedbug infestations are mentally, physically and financially distressing to Yukon Housing Corporation tenants; and

THAT the Yukon Housing Corporation has not taken adequate action to prevent bedbugs and treat infestations in its buildings;

THEREFORE, the undersigned ask the Yukon Legislative Assembly to urge the Yukon government to

- (1) Offer use of a bedbug oven to incoming tenants to prevent bedbugs from travelling between buildings.
- (2) Respond to all bedbug infestation complaints within 48 hours.
- (3) Bear the full cost of treatment, cleaning, and furniture replacement for tenants whose units have been infested with bedbugs.
