 additional signatures
 tabled October 21, 2021

Petition

To the Yukon Legislative Assembly,

The Petition of the undersigned shows;

That caregivers for a child or children with a disability can include parents, guardians, and other relatives.

That parents who are caregivers of a child or children with a disability often take significant financial losses to fulfill this role.

That many parents would prefer to care for their child or children with a disability themselves, rather than outsource a subsidized non-familial caregiver.

That there is currently a shortage of nurses in Whitehorse, which affects the quality of care provided to a child or children with disabilities.

That the Yukon Government does not include parents in its policy to provide financial compensation to caregivers of children with a disability.

Therefore, the undersigned ask the Yukon Legislative Assembly to expand the scope of Children's Disability Services to include equal financial support for parents who are full time caregivers to a child or children with a disability
