The response is as follows:

**Question:**

Another project that was committed to this summer was the crosswalk at Takhini school, which included enhanced zebra marks on the pavement of Range Road, as well as curb extensions at the crosswalk to calm traffic, reduce crossing distance, and improve sightlines. I know that Range Road is becoming more and more busy with development going on in that area. What is the status of that project, and when should we expect to see the work begin? I would also like to ask about the project at Elijah Smith school. The news release said that the enhanced zebra markings would be painted on the pavement at the east-west pedestrian crossing at the Hamilton Boulevard and McIntyre Drive roundabout, in front of Elijah Smith school. Can the minister please provide more information about the status of that project? Has the work been started or is it underway, and when can we expect it to be complete?

**Response:**

- The City of Whitehorse is leading the projects and provided the following manager to contact:
