Question:

What documentation does the Department of Highways and Public Works use to track when bid value reductions associated with the First Nations Procurement Policy cause the Department of Highways and Public Works to pay more in direct costs up front?

Response:

Information about the Government of Yukon's tenders is available on Yukon bids&tenders. This website provides information on open tenders, as well as tenders that have closed. For closed tenders, the website shows what prices were submitted by bidders. In cases where bid value reductions have been applied, the website shows the price used for the purposes of evaluation. Finally, the website also shows which bidder was awarded the contract.
