The response is as follows:

Question:

What is the value of transportation projects that have been tendered so far? When does the minister expect the balance of those transportation projects to hit the Bids and Tenders site and then be awarded and eventually for work to start on those projects?

Response:

To date, the Transportation Division of Highways and Public Works has approximately \$191 million in capital projects procured and under contract for the 2022-23 fiscal year.
