Letter to Nils Clarke, Minister of Environment

Nils Clarke, Minister of Environment

November 16, 2022

Dear Mr. Clarke,

We understand that the proposed Animal Protection Act has now passed the 3rd reading. We were disappointed to hear that you did not respond to our email and take the time to consult with us prior to this happening. Our last email to you was in response to your phone call reaching out to meet with us. We are losing faith in your credibility of actually wanting to meet with us and discuss a new act that will directly affect all of our members in a big way. We thought this was a democratic society in which if new laws were going to be passed, the government would meet with stakeholders and consult with them prior to the new laws coming into effect. We again express our disappointment in not even having a reply email from you prior to the Animal Protection Act passing the 3rd reading in legislation. We understand there is supposed to be some form of consultation from government on the regulations being created for this Act. We would like to see you take the time to meet and consult with us prior to the new regulations being adopted. We are sure you would like the same thing if you were in our position.

Sincerely

Mandy

Vice President, Yukon Dog Musher's Association

We look forward to your response..

Sincerely

Mandy

Vice President

Yukon Dog Musher's Association

cc John Streicker, Minister of Energy, Mines and Resources

cc Currie Dixon, Yukon Party Leader
