

To the Yukon Legislative Assembly:

This petition of the undersigned shows:

THAT neighbourhood schools are a central element of neighbourhoods that reflect and implement good urban planning;

THAT neighbourhood schools are an important part of any plan or vision to sustain or promote diverse, healthy neighbourhoods that are reflective of a wide range of demographics;

THAT that École Whitehorse Elementary School, also known as EWES, is the only elementary school in downtown Whitehorse;

THAT in June 2022, prior to and without conducting any public consultation, the Yukon government announced that it would be closing EWES and rebuilding the school in the Takhini Educational Land Reserve, also known as the Takhini ballpark area; and

THAT the Takhini ballpark area is an important area for physical recreation and in particular for the softball community in Whitehorse;

THEREFORE, the undersigned ask the Yukon Legislative Assembly to urge the Yukon government to ensure that there is an elementary school in downtown Whitehorse and to conduct public consultation on this matter.
