

To the Yukon Legislative Assembly:

This petition of the undersigned shows:

THAT school bus safety is vital to keeping Yukon children safe, and recent collisions involving other vehicles hitting a school bus and near-misses involving children on the road demonstrate a need for more enforcement, and tougher penalties for drivers who endanger the lives of children on and near school buses.

THAT the province of Prince Edward Island strengthened its penalties for illegally passing a school bus to include suspending the offender's driver's licence.

THEREFORE, the undersigned ask the Yukon Legislative Assembly to urge the Government of Yukon to add dashboard cameras to school buses to make it easier to catch people who drive dangerously near a school bus, and hold public consultations on legislative changes to increase the penalty for illegally passing a stopped school bus to include suspending the offender's driver's licence.
