

Petition to Implement a Fee on Single-Use Retail Bags in Yukon

To the Yukon Legislative Assembly:

This petition of the undersigned shows:

THAT single-use plastic bags have negative impacts on the environment and are an easily avoidable component of the Yukon waste stream.

THAT the recycling system for these items is unsustainable, these items occupy valuable landfill space and often escape collection, polluting our local environment and interfering with wildlife.

THAT on October 31, 2018 the Yukon Legislative Assembly adopted a motion (Motion No. 294, as amended) urging the Government of Yukon to "work towards eliminating the distribution of single-use plastic, including plastic bags, food and beverage containers, straws, utensils, lids and packaging."

THAT fees on single-use carrier bags effectively reduce their use and encourage use of reusable alternatives, as seen in similar jurisdictions such as Northwest Territories.

THEREFORE, the undersigned ask the Yukon Legislative Assembly to urge the Government of Yukon to implement a mandatory fee on all single-use retail bags until a ban is in place.

THAT single-use plastic bags have negative impacts on the environment and are an easily avoidable component of the Yukon waste stream.

THAT the recycling system for these items is unsustainable, these items occupy valuable landfill space and often escape collection, polluting our local environment and interfering with wildlife.

THAT on October 31, 2018 the Yukon Legislative Assembly adopted a motion (Motion No. 294, as amended) urging the Government of Yukon to "work towards eliminating the distribution of single-use plastic, including plastic bags, food and beverage containers, straws, utensils, lids and packaging."

THAT fees on single-use carrier bags effectively reduce their use and encourage use of reusable alternatives, as seen in similar jurisdictions such as Northwest Territories.

THEREFORE, the undersigned ask the Yukon Legislative Assembly to urge the Government of Yukon to implement a mandatory fee on all single-use retail bags until a ban is in place.

THAT single-use plastic bags have negative impacts on the environment and are an easily avoidable component of the Yukon waste stream.

THAT the recycling system for these items is unsustainable, these items occupy valuable landfill space and often escape collection, polluting our local environment and interfering with wildlife.

THAT on October 31, 2018 the Yukon Legislative Assembly adopted a motion (Motion No. 294, as amended) urging the Government of Yukon to "work towards eliminating the distribution of single-use plastic, including plastic bags, food and beverage containers, straws, utensils, lids and packaging."

THAT fees on single-use carrier bags effectively reduce their use and encourage use of reusable alternatives, as seen in similar jurisdictions such as Northwest Territories.

THEREFORE, the undersigned ask the Yukon Legislative Assembly to urge the Government of Yukon to implement a mandatory fee on all single-use retail bags until a ban is in place.

THAT single-use plastic bags have negative impacts on the environment and are an easily avoidable component of the Yukon waste stream.

THAT the recycling system for these items is unsustainable, these items occupy valuable landfill space and often escape collection, polluting our local environment and interfering with wildlife.

THAT on October 31, 2018 the Yukon Legislative Assembly adopted a motion (Motion No. 294, as amended) urging the Government of Yukon to "work towards eliminating the distribution of single-use plastic, including plastic bags, food and beverage containers, straws, utensils, lids and packaging."

THAT fees on single-use carrier bags effectively reduce their use and encourage use of reusable alternatives, as seen in similar jurisdictions such as Northwest Territories.

THEREFORE, the undersigned ask the Yukon Legislative Assembly to urge the Government of Yukon to implement a mandatory fee on all single-use retail bags until a ban is in place.

Petition to Implement a Fee on Single-Use Retail Bags in Yukon

To the Yukon Legislative Assembly:

This petition of the undersigned shows:

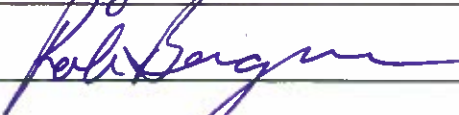

THAT single-use plastic bags have negative impacts on the environment and are an easily avoidable component of the Yukon waste stream.

THAT the recycling system for these items is unsustainable, these items occupy valuable landfill space and often escape collection, polluting our local environment and interfering with wildlife.

THAT on October 31, 2018 the Yukon Legislative Assembly adopted a motion (Motion No. 294, as amended) urging the Government of Yukon to "work towards eliminating the distribution of single-use plastic, including plastic bags, food and beverage containers, straws, utensils, lids and packaging."

THAT fees on single-use carrier bags effectively reduce their use and encourage use of reusable alternatives, as seen in similar jurisdictions such as Northwest Territories.

THEREFORE, the undersigned ask the Yukon Legislative Assembly to urge the Government of Yukon to implement a mandatory fee on all single-use retail bags until a ban is in place.

THAT single-use plastic bags have negative impacts on the environment and are an easily avoidable component of the Yukon waste stream.

THAT the recycling system for these items is unsustainable, these items occupy valuable landfill space and often escape collection, polluting our local environment and interfering with wildlife.

THAT on October 31, 2018 the Yukon Legislative Assembly adopted a motion (Motion No. 294, as amended) urging the Government of Yukon to "work towards eliminating the distribution of single-use plastic, including plastic bags, food and beverage containers, straws, utensils, lids and packaging."

THAT fees on single-use carrier bags effectively reduce their use and encourage use of reusable alternatives, as seen in similar jurisdictions such as Northwest Territories.

THEREFORE, the undersigned ask the Yukon Legislative Assembly to urge the Government of Yukon to implement a mandatory fee on all single-use retail bags until a ban is in place.

Pétition visant à instaurer une taxe sur les sacs de vente au détail à usage unique au Yukon

À l'Assemblée législative du Yukon:

Cette pétition des soussignés montre:

QUE les sacs de plastique à usage unique ont des effets négatifs sur l'environnement et constituent un élément facilement évitable du flux de déchets du Yukon.

QUE le système de recyclage de ces articles ne soit pas durable, ces articles occupent un espace précieux pour la mise en décharge et échappent souvent à la collecte, ce qui pollue notre environnement local et interfère avec la faune.

QUE le 31 octobre 2018, l'Assemblée législative du Yukon a adopté une motion (motion no 294, telle que modifiée) exhortant le gouvernement du Yukon à « travailler à éliminer la distribution de plastique à usage unique, y compris les sacs en plastique, les contenants pour aliments et boissons, les pailles, les ustensiles, les couvercles et les emballages. »

QUE les frais sur les sacs de transport à usage unique réduisent effectivement leur utilisation et encouragent le recours à des solutions de remplacement réutilisables, comme on le voit dans des juridictions similaires telles que les Territoires du Nord-Ouest.

EN CONSÉQUENCE, les soussignés demandent à l'Assemblée législative du Yukon de demander instamment au gouvernement du Yukon d'imposer des frais obligatoires pour tous les sacs de vente au détail à usage unique jusqu'à ce qu'une interdiction soit en place.

THAT single-use plastic bags have negative impacts on the environment and are an easily avoidable component of the Yukon waste stream.

THAT the recycling system for these items is unsustainable, these items occupy valuable landfill space and often escape collection, polluting our local environment and interfering with wildlife.

THAT on October 31, 2018 the Yukon Legislative Assembly adopted a motion (Motion No. 294, as amended) urging the Government of Yukon to "work towards eliminating the distribution of single-use plastic, including plastic bags, food and beverage containers, straws, utensils, lids and packaging."

THAT fees on single-use carrier bags effectively reduce their use and encourage use of reusable alternatives, as seen in similar jurisdictions such as Northwest Territories.

THEREFORE, the undersigned ask the Yukon Legislative Assembly to urge the Government of Yukon to implement a mandatory fee on all single-use retail bags until a ban is in place.
